Application/Control Number: 09/854,362

Art Unit: 1745

## **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The Applicant claims a fuel cell assembly comprising at least one groove network extending through the fuel cell assembly and including at least one filling port for the groove network, and a seal within each groove network that has been formed in place after assembly of the separate elements, wherein the seal provides a barrier between at least two of the separate elements to define a chamber for a fluid for operation of the fuel cell.

Applicant claims an electrochemical cell assembly comprising at least one groove network extending through the electrochemical cell assembly and including at least one filling port for the groove network, and a seal within each groove network that has been formed in place after assembly of the separate elements, wherein the seal defines a barrier between at least two elements to define a chamber for a fluid for operation of the electrochemical cell assembly.

The prior art of record, Schmid et al., U.S. Pat. No. 6,080,503 teach a fuel cell assembly comprising a groove network and provides adhesive bonds between different layers and elements within a fuel cell stack.

However, the prior art of record does not suggest a groove network, including a filling port for the groove network, extending through the fuel cell assembly. Additionally, the prior art of record does not disclose a seal within each groove network that has been formed in place after assembly of the separate elements.

Any comments considered necessary by applicant must be submitted no later

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Angela J. Martin whose telephone number is 571-272-

1288. The examiner can normally be reached on Monday-Friday from 9:00 am to 5:00

pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Patrick Ryan can be reached on 571-272-1292. The fax phone number for

the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
